Amazing Pictures and Facts About Norway: The Most Amazing Fact Book for Kids About Norway

As Jayson Harsin points out, there are many techniques employed: political communication informed by cognitive science, which aims at managing perception and belief of segmented populations through techniques like microtargeting, prolific user-generated content and fewer society-wide common trusted authorities to distinguish between truth and lies; algorithms that govern what appears in social media and search engine rankings, sometimes based on what the algorithm thinks users want and not on what is necessarily factual; news media that has itself been marred by scandals of plagiarism, hoaxes, propaganda, and changing news values; tabloidization, infotainment. Electronic books and texts.
